Water service outage announced for Anini Road customers

(12:20 p.m.) KILAUEA - The Department of Water (DOW) and the Princeville Utilities Co. (PUCI), has issued an urgent water service outage for Anini Road customers, until further notice due to on-going power outages that have impacted pump stations at the PUCI's well site.

Water tank levels are extremely low. Normal water use during a water outage notice could cause unnecessary air or sediment to be automatically drawn into household plumbing.

Additionally, customers are advised to turn-off appliances that automatically draw water such as ice machines and irrigation systems.

There is currently no available timeline for service restoration until power can be restored. An update will be provided when new information is received.
